

## Coalition Support Agreement

**The mission of the Colorado Criminal Justice Reform Coalition is to reverse the trend of mass incarceration in Colorado.**

CCJRC has a coalition of over 6,500 individual members and over 100 organizations united to stop perpetual prison expansion in Colorado through policy and sentence reforms. Our areas of focus include, but are not limited, to drug policy reform, women in prison, racial injustice, re-entry, and the collateral impact of incarceration on children, families and communities. We are opposed to the use of private prisons in the State of Colorado.
