

# Colorado reentry through WAGEES Organizations

WAGEES community partners reflect the people they serve. They live in the same community as their clients. They have similar backgrounds and know what it means to deal with the stuff that comes with that. More importantly, they know what it takes to overcome that stuff and lead lives of satisfaction and fulfillment. If you want to keep doing what you've always done, that's your choice

If you want to give your self a chance at something better, come see them.

Services include: Employment preparation and placement, work clothing and tool assistance, mentoring, identification acquisition services, vocational training cost assistance, transportation assistance, gang disengagement, medical, dental and mental health benefits. Housing Assistance, family reunification/parenting, education assistance and more.
